

Department of Energy

§ 205.309

not furnish the information called for in §§ 205.302(g) and 205.303 (Exhibit C). Applicants, regardless of the amount of electric energy to be exported, may be required to furnish such supplemental information as the ERA may deem pertinent.

§ 205.305 Transferability.

(a) An authorization to transmit electric energy from the United States to a foreign country granted by order of the ERA under section 202(e) of the Federal Power Act shall not be transferable or assignable. Provided written notice is given to the ERA within 30 days, the authorization may continue in effect temporarily in the event of the involuntary transfer of this authority by operation of law (including transfers to receivers, trustees, or purchasers under foreclosure or judicial sale). This continuance is contingent on the filing of an application for permanent authorization and may be effective until a decision is made thereon.

(b) In the event of a proposed voluntary transfer of this authority to export electricity, the transferee and the transferor shall file jointly an application pursuant to this subsection, setting forth such information as required by §§ 205.300 through 205.304, together with a statement of reasons for the transfer.

(c) The ERA may at any time subsequent to the original order of authorization, after opportunity for hearing, issue such supplemental orders as it may find necessary or appropriate.

§ 205.306 Authorization not exclusive.

No authorization granted pursuant to section 202(e) of the Act shall be deemed to prevent an authorization from being granted to any other person or entity to export electric energy or to prevent any other person or entity from making application for an export authorization.

§ 205.307 Form and style; number of copies

An original and two conformed copies of an application containing the information required under §§ 205.300 through 205.309 must be filed.

§ 205.308 Filing schedule and annual reports.

(a) Persons authorized to transmit electric energy from the United States shall promptly file all supplements, notices of succession in ownership or operation, notices of cancellation, and certificates of concurrence. In general, these documents should be filed at least 30 days prior to the effective date of any change.

(b) A change in the tariff arrangement does not require an amendment to the authorization. However, any entity with an authorization to export electric energy shall file with the ERA, and the appropriate state regulatory agency, a certified copy of any changed rate schedule and terms. Such changes may take effect upon the date of filing of informational data with the ERA.

(c) Persons receiving authorization to transmit electric energy from the United States shall submit to the ERA, by February 15 each year, a report covering each month of the preceding calendar year detailing the gross amount of kilowatt-hours of energy, by authorized category, received or delivered, and the cost and revenue associated with each category.
